

Program

Second (and hopefully last) Virtual Conference of the Ethologische Gesellschaft e.V.

February 25th, 2022, 13:00 - 18:00 CET

13:00 **Welcome** (Claudia Fichtel)

Session I (Chair: Erica van de Waal)

13:05 **Lea Prox**

Talk Reproductive senescence in wild and captive Malagasy primates
(Breakout Room 1)

13:15 **Fragkiskos Darmis**

Talk Do female reproductive strategies drive cycle and swelling duration in chacma baboons? (Breakout Room 2)

13:25 **Léna de Framond**

Talk Long-term effect of noise pollution on the onset of avian dawn chorus: a natural experiment facilitated by the closure of an international airport
(Breakout Room 3)

13:35 **Selina Gerdes**

Talk Precopulatory mate guarding in the lekking lesser wax moth *Achroia grisella* – Effects of nighttime perception (Breakout Room 4)

13:45 **Doris Nicolakis**

Talk Effects of inbreeding on sperm production and courtship vocalizations of wild-derived house mice (Breakout Room 5)

13:55 **Rituparna Sonowal**

Slam Long term effects of sterilization on social behaviors of free-ranging dogs in India
(Breakout Room 6)

14:05 **Break**

Session II (Chair: Barbara Caspers)

14:15 **Jingyu Qiu**

Talk The evolution of marsupial social organization
(Breakout Room 1)

14:25 **Judit Stolla and Carina Bruchmann**

Talk The “Model/Rival” training method with long-tailed macaques (*Macaca fascicularis*) (Breakout Room 2)

14:35 **Sadie Tenpas**

Talk Altruistic and mutualistic strategies of cooperation in captive gorillas
(Breakout Room 3)

14:45 **Taylor Lynne Rystrom**

Talk Dominance rank during adolescence shapes the cortisol response of female guinea pigs (Breakout Room 4)

14:55 **Irene Gaona-Gordillo**

Talk Phenotypic integration between morphology and behaviour at different hierarchical levels (Breakout Room 5)

15:05 **Break**

Session III (Chair: Aurelia Strauss)

15:15 **Eleonora Rovegno**

Talk The hybrid delay task reveals individual variability in bumblebees' self-control (Breakout Room 1)

15:25 **Daria Nagel**

Talk Serial Reversal in Ravens (*Corvus corax*). Learning patterns and individuality (Breakout Room 2)

15:35 **Kristina Kull**

Talk Time perception of domestic pigs: what makes pigs' time fly? (Breakout Room 3)

15:45 **Sophia Quante**

Talk How powerful is a touch? The influence of regular touchscreen training and its termination on hormones and behaviour in mice (Breakout Room 4)

15:55 **Louisa Bierbaum**

Talk How do you feel? Measuring emotional states in mice using two different cognitive judgement bias paradigms (Breakout Room 5)

16:05 **Marlene Sroka**

Slam On the tracks of animal personality – Is it linked to animal welfare? (Breakout Room 6)

16:15 **Break**

Session IV (Chair: Sylvia Kaiser)

16:25 **Melina Kienitz**

Talk Bumblebees can differentiate sucrose solution from water at a distance (Breakout Room 1)

16:35 **Carolina Trcka-Rojas**

Talk Daily activity patterns across the annual cycle of the European Bee-eater (*Merops apiaster*) in the breeding and non-breeding period - do sex and age matter? (Breakout Room 2)

16:45 **Alexandra Langehennig-Peristenidou**

Talk Vocal plasticity during infancy: ontogeny of the trill call in grey mouse lemurs (Breakout Room 3)

16:55 **Sabrina Schalz**

Talk Eavesdropping on Speech in Crows (Breakout Room 4)

17:05 **Ondřej Fišer**

Talk The importance of size in predator recognition by untrained birds (Breakout Room 5)

17:15 **Magdalena Włodarz**

Slam The diet ecology and breeding habitat choice of barn owls (*Tyto alba*), in Brandenburg, Germany (Breakout Room 6)

17:25 **Break**

17:45 **Closing** (Claudia Fichtel)
