

## Wednesday 21.02.2024

14:00	Registration opens		
15:50	Opening		
16:00	<b>Plenary 1</b>	<b>Barbara Klump</b>	<b>The ecology and cognition of extractive foraging - from crows to cockatoos and back again</b>
	Chair: Rebecca Rimbach		
17:00	Lea Vodjerek		Do females prefer more confident males? The role of male quality in pregnancy replacement
17:20	Michelle Beyer		Female spiders performing maternal care reduce sild-bound chemical signalling
17:40	Daniel Villar		Testing the Mistaken Identity Hypothesis for same-sex sexual behaviour in birds
18:00	Leg stretcher		
18:15	<b>Public talk</b>	<b>Mitja Back</b>	<b>Ich und die Anderen: Das Zusammenspiel von Persönlichkeit und sozialen Beziehungen</b>
19:15	Icebreaker		

## Thursday 22.02.2024

9:00	<b>Plenary 2</b>	<b>Denis Réale</b>	<b>The challenges of explaining behavioural variation: hypotheses, results, and mysteries</b>
10:00	Coffee break		
	Chair: Vendrana Šlipogor		
10:30	Jingyu Qiu		Effects of birth cohort and seasonality on personality in the solitary bush Karoo rat ( <i>Otomys unisulcatus</i> )
10:50	Fragkiskos Darmis		Male reproductive tactics in house mice: consistent individual differences, intrinsic factors and density effects
11:10	Ulrike Scherer		Individuality – insights from clonal fish raised under highly standardised conditions
11:30	Sabine Kraus		Individual differences in zebra finches - the long way of selection lines
11:50	Valeria Mazza		What's new got to do with it? Responses to novel stimuli of small mammals along a gradient of human disturbance
12:10	Aurelia Strauss		Variation in chronotype – causes and consequences
12:30	Lunch break		
	Chair: Andreas Berghänel		
13:30	Karem Lopez-Hervas		Adjustments of life-history traits to environmental change, emphasis on a change in food quality in <i>Mus musculus</i>
13:50	Molly Gilmour		Predation risk, but not competition for resources, affect resource biodiversity after foraging in small rodents
14:10	Martin Küblbeck		How does prey abundance shape breeding behaviour? A case study in whinchats ( <i>Saxicola rubetra</i> )
14:30	Max Licht		Rapid colour change in a group-hunting pelagic predator attacking schooling prey
14:50	Andrea Flack		Unfolding wings: understanding the development of migration patterns and flight skills in a long-distance migrant
15:10	Theresa Schabacker		Energized bats: high metabolism fuels dynamic stress responses
15:30	Coffee break		
16:00	General Assembly		
17:00	Poster Session		
19:00	Social Dinner		

## Friday 23.02.2024

9:00	Plenary 3	Daniela Rößler	The spider sleeps tonight: an exceptional framework for comparative sleep research
10:00	<i>Coffee break</i>		
	Chair: Andrea Flack		
10:30	Lena Dressler		Exploring proboscis bat communication: insights from playback experiments
10:50	Yara Silberstein		Function and acoustic structure of drumming in Mongolian gerbils ( <i>Meriones unguiculatus</i> )
11:10	Alexandra Langehennig-Peristenidou		Impact of social relationships on adult trill calls in grey mouse lemurs ( <i>Microcebus murinus</i> )
11:30	Hugo Loning		The social organisation and song behaviour of zebra finches in the wild
11:50	Lisa Ohrndorf		Love your neighbours? – Patterns of landscape partitioning among neighbouring Guinea baboon parties
12:10	Laura Knapwerth		The luring cannibal: dishonest sexual signalling in the springbok mantis
12:30	<i>Lunch break</i>		
	Chair: Valeria Mazza		
13:30	Chris Tyson		Wild zebra finch pairs display extreme spatial cohesion
13:50	Shai Markman		“Hey!”: Wild birds use intentional attention-getters to initiate cooperative interactions
14:10	Manon Schweinfurth		Chimpanzees walk the road together in the same rhythm
14:30	<b>Awarding of Honorary Membership</b>		
15:30	Farewell & End
